1	×	4	+		9
-			+		
	+		+		18
÷		×		+	
	+		+		17
-2		60		13	

Fill in the missing numbers  
 The missing values are the whole numbers between 1 and 9.  
 Each number is only used once.  
 Each row is a math equation.  
 Each column is a math equation.  
 Remember that multiplication and division are performed before addition and subtraction.

**So They Say**

"How wonderful it is that nobody need wait a single moment before starting to improve the world." - Anne Frank

"Whatever women do they must do twice as well as men to be thought half as good. Luckily, this is not difficult." - Charlotte Whitton

"Let yourself be silently drawn by the stronger pull of what you really love." - Rumi

**Believe It or Not**

- ▶ The Smash Mouth hit song "Walkin' on the Sun" is about the 1992 LA riots.
- ▶ Gold melts at 1064.43° Centigrade. It can conduct both heat and electricity and it never rusts.
- ▶ Harriet Tubman, in addition to organizing the Underground Railroad, served with the U.S. Army as a scout, spy, nurse and soldier during the Civil War, leading a raid with the African-American 2nd South Carolina regiment that freed over 700 slaves.
- ▶ Car accidents increase in the weeks following the beginning of daylight saving time.
- ▶ The leotard is named after its inventor, Jules Léotard, a French acrobat who performed the first flying trapeze act in 1859. He wore his tight-fitting ensemble to show off his muscles.
- ▶ A litter of kittens can have separate fathers due to multiple mates during the mother's heat.
- ▶ During the 1700s in France, the umbilical cords of royal babies were dusted with powdered cummin and myrrh.
- ▶ Contrary to common belief, farmers did not lobby for daylight saving time and even fought against it in 1919. However, they lost against urban retail outlets, such as fast food and tourist companies, who were in favor of the time change.

## Community Feature GOING HOME

### What does your organization do?

The mission at Going Home Hawai'i is to assist justice-involved Hawai'i Island men, women and youth with reintegration into community life through employment, education, housing and appropriate services.

Going Home Hawai'i (GHH) is the nonprofit entity of the Hawai'i Island Going Home Consortium and is Hawai'i County's central resource to improve the lives and protect the health and wellbeing of people leaving corrections in Hawai'i. GHH is the state leader in innovative programs and partnerships that create a healthier and more equitable Hawai'i. For almost two decades, GHH has created multiple programs and partnerships to reduce recidivism, strengthen 'Ohana, and improve outcomes for those involved with the justice system.

### How can those in need access your services?

All referrals are required to be sent to us via supervising authority/agency (probation, parole, lawyer, courts, intake service center, etc.)

### How can the community get involved?

GHH believes we decrease the risk of new crimes and new victims by providing supportive services to meet the individualized needs of justice-involved persons experiencing barriers to successful reintegration and use a holistic approach of cultural inclusion and collaboration among community partners.

Nearly all incarcerated persons in Hawai'i will be released back to their communities at some point. Without help, returning prisoners face homelessness, unemployment, lack of training, substance abuse and mental health issues, poor social support, and a range of other issues. Far too many such individuals are at risk for violating their terms of supervision and new criminal offenses. Successful reintegration for the formerly incarcerated is one of the most important crime-prevention tools our communities have. With community support, they can achieve rehabilitation and become productive members of the community.

### Kawika's Column

"This year 2023, I promise myself to ..."

It's a new year, time for new resolutions. There's nothing wrong with making them. Maybe you're a person that makes them and sticks to them or perhaps you don't make them anymore because it is too hard to keep. Well, don't feel bad!

Actual past studies indicate by the time the end of February beginning March, 80 percent of the good intention ions had fallen by the wayside. Theses studies were conducted by financial institutions and medical professionals. Why so many? I think many (even myself) making a promise too yourself can sometimes be "no big deal."

If you're really serious though, a resolution is like a contract with yourself. A contract has a statement goal, a method or means of achievement, a detailed cost (time and money, if any), and a kept record of milestones of progress hit and misses.

Hoping you'll have a great new year of good health, happiness for you and your 'Ohana!

Improve your back pain, headaches, sleep, and energy.

### A Guy Walks Into a Bar...

⇨ A couple walking in the park noticed a young man and woman sitting on a bench, passionately kissing.  
 "Why don't you do that?" said the wife.  
 "Honey," replied her husband, "I don't even know that woman!"  
 ⇨ A woman took her dog to the parlor for a haircut and asked what it would cost. Being told that it would cost her \$50, she was outraged. "I only pay 30 bucks for my own haircut!" she said. The groomer replied, "That may be true. But then you don't bite, do you?"  
 ⇨ My wife loves sales. She'll buy anything that's marked down. Yesterday she came home with an escalator.  
 ⇨ A man opens his door and finds a snail on his front porch. He picks it up and throws it across the street. A year later the man opens his door and finds the same snail on his front porch. The snail looks up and says, "What the heck was that all about?!!!"  
 ⇨ The prison officer tells the warden, "Sir, I have to report that ten prisoners have broken out." The alarmed warden says, "Blow the whistles, sound the alarms, alert the police. With a surprised look the officer says, "Shouldn't we call the doctor first - it looks as if it might be measles."  
 ⇨ I had plastic surgery last week. My wife cut up my credit cards.  
 ⇨ A man walks into a pub and he asks the barman for a pint. All of a sudden he notices Vincent Van Gogh over the other side of the bar. The man asks, "Do you wanna pint, mate?" and Van Gogh says, "No thanks, I've got one ear!"
